Sch. Lady, from Oahu ports.  
Sch. Malolo, Lyle, from wreck.

### SAILED FROM HONOLULU.

Wednesday, Feb. 21.  
Am. sp. John McDonald, Storer, for Hilo.  
Haw. bark Nuuanu, Joselyn, for Kaula.  
Sch. Malolo, Lyle, for wreck.  
Stmr. Upolu, Henningsen, for Hawaii.  
Am. sch. Henry Wilson, Johnson, for the Sound.  
R. M. S. Aorangi, Hay, for Victoria.

### PASSENGERS.

Arrived.  
From the Colonies, per R. M. S. S. Aorangi, February 21.—Miss E. Hines, Dr. Maxwell, J. McInnes.  
From the Colonies, per C. A. S. Aorangi, Feb. 21.—Walter Maxwell, John McInnes and Esther Hines.  
From Kaula, per stmr. Waiakoa, Feb. 21.—Mr. and Mrs. E. Koch, Mr. and Mrs. N. Kausenbeer, Miss Borchers.

### Aorangi's Report.

The R. M. S. Aorangi, C. W. Hay commander, left Sydney at 1 p. m. Tuesday, Feb. 6th; cleared the Heads at 2 p. m.; experiencing fine weather and smooth sea to Brisbane, where she arrived at 8:30 a. m. on the 8th inst. After having received passengers, mails and cargo, left again at 3:45 a. m. on the 9th inst. Fine weather, with smooth sea and easterly by east-south-easterly winds, prevailed until the 11th inst., when very heavy rain was encountered. Thence until the 13th, fine weather and smooth sea, when the wind became variable until the 15th. The following day the equator was crossed, when the wind changed to northeast and freshened to strong northeast trades, accompanied by heavy head sea; strong adverse currents also were met with, materially retarding the progress of the ship. These conditions have prevailed to port. Passed the company's R. M. S. Miowera at 2:30 p. m. on the 20th inst. and exchanged signals.

The Waiakoa brought 3675 sacks of sugar from Anahola and Hanalei. The water got so low at the former landing that she had to finish loading at Hanalei.

The ship John McDonald, after lying at anchor outside for a week, sailed yesterday for Hilo to load sugar.

### Ballast Regulations.

The burdensome ballast regulations of Newcastle, N. S. W., have been lately modified greatly to the advantage of vessels arriving there in ballast. The regulations now in force are as follows:

1. The port health officer will inspect ballast to ascertain its state, and will exercise discretion in dealing with it under the subjoined rules.
2. All foul or offensive ballast whensoever arriving must be discharged at sea; or, if within the harbor, then below low-water mark.
3. All clean stone and shingle ballast whensoever arriving may be disposed of at the master's discretion, subject to port regulations.
4. Clean gravel, sand, earth or loam ballast arriving from ports not indicated in the next succeeding paragraph may be used in harbor works or discharged at the ballast jetty.
5. Gravel, sand, earth or loam ballast taken at ports or places which (a) are malarious, (b) have been the seat of epidemics of yellow fever, (c) are the permanent seat of cholera, or (d) were the seat of cholera, yellow fever or plague at the date such ballast was taken, must be discharged at sea, or, if within the harbor, then below low-water mark.
6. On special report by the port health officer, accompanied with a written application by the master, the board may direct conditional practice to be given to vessels from which ballast has not been discharged, on condition that a sufficient guaranty is given by the master, owner or agent that the ballast shall not be disturbed until the vessel has sailed out of New South Wales waters.

The Chinese store and adjoining buildings at Pawa, plague infected and insanitary, were burned yesterday.

The schooners Blanche & Ella from Hawaii and Lady from Oahu ports arrived yesterday.

The British bark East African was towed into the harbor yesterday.

The Minister does not bind himself to accept the lowest or any bid.

ALEX. YOUNG,  
Minister of the Interior.

Feb. 20th, 1900. 5473

### NOTICE TO SHIPPERS.

In the matter of disinfection or fumigation of freight, shippers will make no distinctions between that destined for points on the Island of Oahu and that destined to points on other Islands.

The original cases must be opened and the straw or loose paper wrapper or sawdust or other packing material removed from each bottle or tin, each bottle or tin is then to be dipped in an approved disinfecting solution; the interior of the original case is then to be washed out with disinfectant; in re-packing the already disinfected bottle or tin no wrapper may be used unless same has first been fumigated or disinfected; the filled case is to be closed up and the entire exterior is to be disinfected.

In cases where the tinned or bottled goods have no loose paper or straw wrapping, or where they are not packed in sawdust or any similar substance the entire original package, after two or more large openings have been made in it, may be dipped in a disinfecting solution; but great care must be exercised to ensure the thorough disinfection of each tin or bottle and the whole interior of the original package as well as the whole exterior surface of such original package.

Shippers having the interests of the entire Island community at heart will exercise very cheerfully every precaution and assist rather than impede the efforts of the Board of Health in preventing a further spread of bubonic plague in these Hawaiian Islands.

Willful infringement or careless disregard of these or other regulations of the Board of Health on the part of shippers will be followed by the immediate withdrawal of privilege of shipment of any goods whatever by those engaging in such infringement or carelessness.

### BOARD OF HEALTH.

A. B. INGALLS.

Superintendent of Disinfection and Fumigation.  
Honolulu, Feb. 15, 1900. 5470

### IRRIGATION NOTICE.
